\$6.00 PER YEAR.

San Francisco, March 17, 1871.

Any notice of the events of the last, month

regions. But it must be confessed that this

of Mt. Washington. The lightning was so intense

and continuous, that for an hour or two the

heavens seemed sheeted with flame, while furious

blasts made the largest buildings tremble. The

most serious result was the falling of a brick

wall upon a tenement, by which three persons

were killed. Californians conclude that they

would rather have an occasional tremor of the

earth beneath, than such a fierce commotion

overhead. No movement was felt here cor-

responding with the heavy shake lately experi-

enced at the Islands. The only occurrence of

the kind reported during the last month upon

Eureka, Humboldt County, two hundred miles

There is much rejoicing here and in the towns

o the south, over the passage by Congress of

the Southern Pacific Railroad bill. This line is

designed to extend from a point on the eastern

border of Texas, near the 31st parallel of latitude

to Fort Yama, in the south-eastern corner of

California. Branches at the extremities will

connect the main road with New Orleans, on the

one end, and with San Diego and San Francisco,

on the other. The distance from the Gulf of

Mexico to this, the metropolis of the Pucific

Coast, will be about 2,300 miles,-a saving of 800

miles between ocean and ocean over the route of

the already existing Pacific road. Land to the

granted in aid of the work, and the completion

terms, to each settler.

here involves universal calamity.

trust and influence, and has been identified with important public enterprises. But those who would speak best of him are obliged to mention ought to include mention of the furious storm of his want of amity, affection, and other peculiariwind and rain with which the city was visited on ties of character that hindered him from receiving the 19th of last month. The people here are so much personal regard. In his lifetime he made little subject to such experiences that they are some large charitable gifts, and by his will has greatly excited and slarmed by what seems a left the bulk of his estate, amounting to nearly a very ordinary event to those who have a fresh million and a half of dollars, for the founding of a emembrance of the play of the elements in other University. But the gift is hampered with such intricate and impracticable conditions, that it is would have been considered quite a blow any- doubtful whether any can be found to undertake

science who are spending the winter on the top | President Grant has given intimation that he will visit this Coast after the adjournment of Congress. The announcement is received with much delight. It will be the first time that a President of the United States has been west of the Rocky Mountains, and citizens of all parties will unite to do him honor. Californians are easily excited to enthusiasm, and fond of demonstrations. Should so distinguished a guest secept their hospitalities, they would give him such a reception as would evince the thorough loyalty

The patron saint of Ireland has to-day received due honors. The weather has been most favorable for a public celebration, and the advantages have been well improved. A long procession. composed of military companies and the several Hibernian Societies, has passed through the crowded streets with music and baneers. The green fing, harp-emblazoned, in everywhere displayed in union with the Stars and Stripes. An tion was delivered before an immense andience in the California Theatre, by Rev. Wm. Faley, in which the ancient glories of Ireland and her present wrongs were eloquently depicted. Col: P. F. Walsh read a poem, and the celebration terminated as usual with sundry balls and ben-

The sides of the slit are now And besides this, an impetus has been given to polished by a thin iron wheel with emery, thus making the sides smooth, preventing them from

eatching on each other.

women and children-betook themselves to the much less.

BEN WADE'S SEA VOLIGE-"Stordy old Ben Wade" seems to have stood the voyage to San Domingo very well. According to all accounts, his stomach was undisturbed during the whole trip. He must have improved, in a sea-facing sense, since 1865. During the summer of that year he took a voyage down the coast to visit the South and improve his health, but before he to the island. It adds another illustration to the had lost sight of Sandy Hook, however, he began to experience the museating horrors of the bring deep. Next morning, a friend called at his state-California has last the brightest star in her lits. room to enquire how he was enjoying himself. rary firmament by the departure for the East of "Enjoying hell!" growled the venerable states Bret Harte. He was a genuine product of the man. "Is this what you call a pleasure trip? Western Coast, and ought to have continued on | The next time I want one like it, I'll stay at the soil that has given his works the racy flavor | home and take a dose of specae."
